

2020-2021 Costs of Care

<https://search.hospitalpriceindex.com/hpi2/hospital/MartinLutherKingJrCommunityHospital/7906or>

This shoppable price list is based on claims and insurance payment file information. It is an estimate, not a guarantee, of actual charges for services only. Actual costs of care may differ for many reasons, including the seriousness of your medical condition, time the procedure takes and the services and supplies you receive. If you have insurance, your benefits will ultimately determine the amount you owe (including deductibles, co-pay, co-insurance, and out-of-pocket maximums). If you proceed with services at MLK Community Healthcare, you may receive a new estimate with more accurate cost and out-of-pocket information. Please contact Sheila Blackwell at 424-338-8637 for more information.

The Martin Luther King Community Healthcare Medical Center shall not be liable for any difference between charges listed here and the final bill for services. You may be eligible for financial assistance under the MLK Community Healthcare financial assistance policy. Financial hardship is evaluated on a case-by-case basis.
